TOURISME

You already know the wines of Burgundy, as well as the open secret that is Jura wine, but did you know that Burgundy-Franche-Comté also boasts spring waters?

Water is omnipresent in the region, and it is not just enjoyed for water sports activities.

This treasure is, most notably, at the origin of the thermal town of Salins-Les-Bains, the 2nd generation spas that provide high-end treatments and a range of health products that are 100% regional, but also the cabins that represent a new genre: spas on the water.

IN THE SPA RESORTS: Whether it is the new thermal baths at Salins-les-Bains that were opened last February, Bourbon-Lancy with its CeltÔ, Luxeuil-les-Bains, Lons-le-Saunier or Saint-Honoré-les-Bains, the region's spa establishments are in step with current trends and constantly innovating!

.....

**HAVE WE CONVINCED YOU?
BURGUNDY-FRANCHE-COMTÉ
IS THE IDEAL DESTINATION
FOR YOUR SPA, ZEN AND
WELLBEING BREAKS!**

IN THE HOTELS: Whether in town or in the countryside, these beautiful establishments boast spas that are decidedly modern, including some that employ cryotherapy and chromo therapy techniques.

PRODUCT RANGES THAT ARE

MADE IN BURGUNDY-FRANCHE-COMTÉ:

Vinésime uses Pinot Noir grapes from de Gevrey-Chambertin and blackcurrant berries from Burgundy to create anti-ageing products that boast unrivalled benefits.

La Cueillette offers treatments that are free from paraben and preservatives, created using natural plant extracts drawn from red fruits and grapes. With anti-oxidant properties, they are used as a basis for the fruitithérapie® spa treatments at La Cueillette in Meursault.

There is also the brand new Secrets de Cassis® range created by Dominique Loiseau using blackcurrant berries from Burgundy.
